

OAKS CHRISTIAN

Spring, 2006

Dear High School Guidance Counselor,

It is my pleasure to introduce you to Eureka Review. For several years Eureka has provided our school with SAT and PSAT programs that benefit both the students and the school. I have been able to watch this company grow over the years and I am continually impressed with the professionalism and integrity of the entire team. From the CEO, to the tutors, this company is really a class act. I am glad that so many of our students have had the opportunity to learn from Eureka.

Eureka's College Admissions Testing presentations at our college nights are always a crowd pleaser. Not only are they informative, but they are also very entertaining. Everyone on the Eureka team is extremely knowledgeable and is able to answer any questions parents may have about the college testing process.

Eureka also administers Mock SATs and Mock PSATs, which help the Oaks Christian students learn what to expect on test day. These programs function as a fundraiser for Oaks as our school raises money for every student that participates. Immediately following the Mock test, Eureka provides scores and results so that students know exactly where they stand with their scores. In addition, Eureka also hosts a PSAT prep day for our students to help them get ready for the PSAT in Oct. The expertise they bring to our students and parents is extremely helpful.

Mock SAT's aren't the only way Eureka helps our school raise money. They have also donated several courses to our annual auction, to raise funds for our financial aid program. In addition, they have initiated discount certificates available for needy students. I so appreciate their philanthropy and willingness to be sensitive to students who are unable to pay for the advantages of test preparation.

As for test results, Eureka's one-on-one approach has really increased SAT scores and the parents have expressed their satisfaction with Eureka and have passed the word on to other parents. Their tutors relate well to the students and give them tools to help them learn over and above the test consequences.

I have no hesitation in recommending Eureka and am confident that you will be more than happy with your association with them.
