Dear High School Parents:

With over two decades of experience working with college bound students I have had the opportunity to see first hand the many SAT review courses on the market. Without question, Eureka One-on-One Review is a cut above any other company.

I have given many high school presentations alongside Jason Moreno, the Founder and CEO of Eureka, and I have to say that he is a dynamic speaker and fabulous presenter. His charisma and enthusiasm for education and higher learning are infectious and the audiences really appreciate his energy.

I invited Jason to speak at our annual Santiago Canyon Counselor's Breakfast in front of 50 high school guidance counselors. Following Jason's presentation I received numerous accolades from the attendees for bringing in a presenter who could captivate and educate them at the same time.

On a personal note, my son Bryan was having a very tough time preparing for the SAT. After an unsuccessful try with one well known review company, I sent him to a second one. Unfortunately, these generic classes did not teach him anything and his scores remained the same. I heard from a friend about Eureka and signed Bryan up. The tailored, one-on-one tutoring was exactly what he needed. The tutors even made time to come to our home on Sunday evenings (the only time Bryan had free) to tutor him. The verbal tutor was outstanding. She was positive, encouraging and truly cared. For many students, including my own child, the verbal section is terrifying. Eureka's tutor helped Bryan relax and built his confidence. After being stuck at 530 twice in a row, he improved to 730!

I would recommend getting in touch with Jason Moreno at Eureka: 1-877-GO-EUREKA (877-463-8735) or Jason@EurekaReview.com to see what he and his incredible company can do for you. I guarantee that you will be extremely impressed with the results
